LWC Incumbent Worker Training Program
Small Business Employee Training Unit

To Whom It May Concern:

Luminate, formerly known as The Louisiana Credit Union League (LCUL), is a nonprofit, professional trade association that exists to serve credit unions in Louisiana. Luminate is dedicated, through cooperation, to promote, protect and perpetuate the credit union movement. Luminate accomplishes this by providing member credit unions with quality leadership to achieve positive results in the areas of governmental affairs, research and information, education and training, community and public relations, and by making available other services which Louisiana credit unions need or desire in order to enhance their ability to successfully meet their members' needs.

Luminate was formed in 1934 and has offered education programs to credit unions throughout the state for over 75 years. We offer training on topics that are of interest to credit union management, employees, and volunteers including compliance, lending, bankruptcy, member services, management issues, opening accounts, and more. Training topics are determined, and program dates are set in the fourth quarter of each year for the upcoming year.

If you have questions or need additional information on the educational offerings we provide, please contact me.

Sincerely,

A handwritten signature in black ink that reads "A. Trauth". The signature is written in a cursive, flowing style.
